

NovaDrier™ Medical Model

Desiccant-free, membrane drying is now available in a small machine-mount package for processing up to 5 lb/hr

Molders of medical devices and other small parts have turned to the Novatec NovaDrier™ for reliable, desiccant-free dryers for almost 20 years. This membrane dryer is now available in a newly designed compact, machine mount version.

— 5 —
YEAR
warranty

No Moving Parts

Scheduled maintenance is reduced to changing the filter elements in two compressed air filters every twelve months and checking/cleaning the recirculation air filter.

Easy Operation

Turn the dryer "ON", set the drying temperature and dry material.

Machine Mount Operation

Compact design with optional machine mount adapter.

Easily Removed/Replaced 20 lb Stainless Steel Hopper

Simple clamp design allows stainless steel drying hopper to be removed for cleaning and/or replaced with a spare hopper containing a different material.

Control on 12' Pendant

Can be mounted on the dryer or on the process machine.

5-Year Warranty

For lowest cost of ownership.

Plus

- › HEPA filter as standard
- › 115/1/50-60 VAC
- › High heat applications up to 350°F/ 176°C
- › 5-year warranty
