C-Series Servo Rotary Knife Cutter

warrantv

Precision on-demand/continuous servo cutters provide best-in-class features for CUT ENERGY, ACCURACY and REPEATABILITY!

The Novatec Bessemer Series servo rotary knife cutters have many standard features that are options on most ordinary units yet have a comparable price point to "stripped down" models.

Easy to Set-up, Use and Maintain!

PLC with 7" High resolution color touch screen control makes set-up, recipe management and line control easier than ever!

Powerful Siemens Servo Motor and Drive

Offers greater repeat accuracy and reliability with less maintenance than others.

Seamless Automatic Switching Between Continuous Mode and On-Demand Mode

Changes in line speed/cut rates automatically changes mode of cut, as necessary.

Siemens 7" High Resolution Color Touch Screen PLC

- Recipe management for different cut lengths
- Multiple batch capability
- Timer
- Totalizer
- Line rate indication
- Data logging

User Interface

Provides easy access to four modes of operation, utilizing the encoder in either the on-demand or continuous modes and the end sensor or timer in the on-demand cutting mode. C-4 cutter

7" high resolution color touch screen

Safety Interlock

Integrated safety for Cat4/SIL3/PLe.

•• .25" SHOWN ACTUAL SIZE

Plus

- SS blade holder and reservoir plus blade wipe
- > Input for optical or mechanical cut signal with adjustable timed delay
- > Output for box change, part cut or dump table
- > Encoder included

- › Ethernet capable
- CRS steel bushings
- > Indicator lights for machine status
- Variable knife speed adjustment for "ON Demand" mode
- > Standard voltage 480/3/60
- Lowest cost of ownership with the industry's only 5-year warranty

Cut made with C-4

Our Standard Features Redefine Value

Industrial strength Siemens PLC touch screen control, standard. Standard built-in features include:

- Batch counter
- Timer
- Optical or mechanical cut signal input
- Change cut mode on the fly

Standard totalizing control Standard data logging

Standard safety interlock Lock-out/tag-out procedure not required

*

Standard stainless steel blade holder for 1 or 2 blades

 Standard stainless steel reservoir and blade wipe

Ethernet ready

ESSEMER

Standard powerful Servo drive with planetary gear reducer

Standard variable speed

Many models available for quick delivery

Standard encoder... 2500 PPR pace encoder supplied with every cutter to match speed of cutter to puller speed.

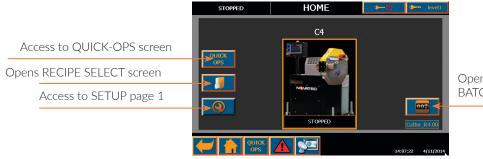

Siemens Color Touch Screen PLC Control Equals **Convenience and Reliability**

Maximum On-Demand Cuts (1 Blade)	300 CPM @ 600 RPM	300 CPM @ 600 RPM	200 CPM @ 600 RPM	
Maximum On-Demand Blade RPM	1000**	1000**	900**	
Maximum Peak Torque (in/lb)	1130	1130	3720	
Blade Mount	12 " stainless steel cutter head			

* Higher rates may be available for certain applications with specific cutter. Single and multiple blade configuration. **See charts below for actual CPM @ Maximum RPM.

Performance Data:

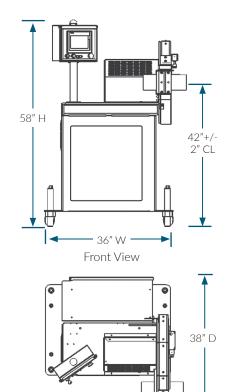

Accessories:

- Remote touchscreen control at extruder
- Bracket system to interface C-Series cutter and puller
- Common power plug

Options:

- Slide base with 8" travel
- Left to right operational direction
- Cutter stack light/audible alarm
- Aluminum blade holder for alternate blades
- Stainless steel bushing holder

Dimensions: C Series Puller

Top View

Slide base with 8" travel allows easy positioning with respect to puller.
